

eterea

TRI TRAMBISERA FORMA

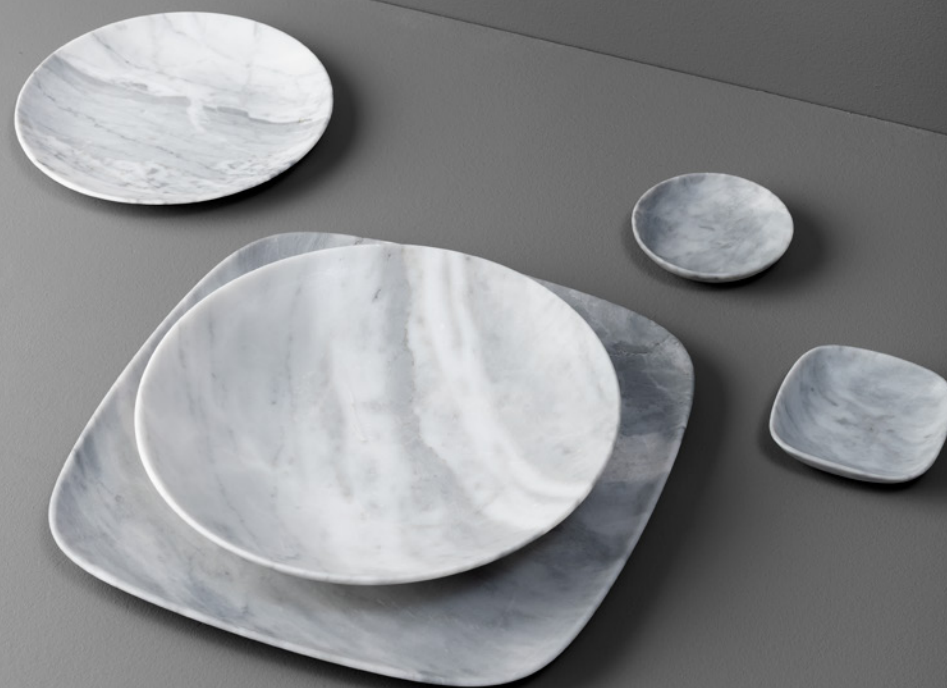

Design Marco Pisati

eterea is an exclusive set of tableware and tabletop accessories crafted from fine Calacatta Gray and Bardiglio Trambiserra marble. The extremely slender profile gives each piece a remarkable visual lightness, allowing light to pass through the material and create delicate shades of white and grey, highlighting the soft, flowing veining of the natural stone.

The plates are treated with a special water-repellent, stain-resistant solution, which reduces the absorption of staining substances and preserves the marble's original appearance over time.
(Certificate of Conformity No. 25LA119 dated 25/08/2025, issued by FILLA Solutions SB S.p.A.).

Designed to add a touch of contemporary luxury to the table setting, the **eterea** collection stands out for the purity of its lines and the elegance of a minimalist design, enhancing the authentic, timeless beauty of natural stone.

Each piece is unique and one of a kind, thanks to the natural variations in veining and tone that make every element an individual expression of marble.

Square flat plate and round soup plate
